Dear Sirs,

I wanted to thank you for your outstanding services. On July 11, 2011 we had a huge storm that ripped off about 30% of our commercial roof and caused extensive damage on the rest of the roof. Within two hours you had about 12 men at our building with a crane to do a temporary patch and stop the water from leaking into the building.

You provided several estimates for different materials and worked with the insurance company to make sure I got an outstanding roof with a 20 year warranty. The work was scheduled for a few weeks later and completed on time.

Tom and Kevin did a great job coordinating the project and the workmen on the job have to be complimented for their efforts. I sell a construction related service and appreciate when other trade professionals deliver a quality product with terrific service at a fair price.

Thank you for your help and wanted to let your potential new customers know that you are a first rate company.

Sincerely,
